Interiors

The Hamptons, a stretch of Long Island's South Fork known for its tony enclaves, is one of the world's prime locations for vacation homes, and once you see these spaces, you'll understand why.

A custom Lindsey Adelman Knotty Bubbles chandelier is the focus of this beach house dining room in Water Mill by Amy Lau. The dining chairs are from Modern Living Supplies.

The color palette of this Amy Lau–designed home in Bridgehampton includes chartreuse green, blue and yellow, inspired by the nearby polo fields. The living room features a Hans Wegner Papa Bear chair and ottoman and a glass-topped coffee table with a driftwood-style base.
