“*Patterns* are a big part of my life and profession, and I find I’m *far braver* in the way I mix and match these days than I was in my *twenties*. Maybe it’s because I’m more *sure* of myself now.”

{TIP} If you’re comfy with color, feel free to pair your printed piece with bright pants or jackets. But for the most flattering, age-appropriate effect, choose items that coordinate with the print’s *darker* hues rather than its brightest or lightest ones.
