

# East Coast vs. West Coast

Design Stars explore coastal design perspectives.

## Come Meet Amy.

“ In general, when I work on my projects, I focus on **curating** rather than just decorating spaces. Each piece should not only hold significance to the client but should **enhance** the overall aesthetic of the space. This allows the home to look cohesive overall while still giving unique and special pieces a chance to shine individually. I create color schemes that are **inspired** by the **location** the home is in; this enhances views and makes the space relate in context to its environment. Most importantly, my goal is to improve the **quality of life** of my clients. I try to make a space that is not only **functional** but very representative of their lifestyle and visual aesthetic. Each space and client is unique and distinctive and my goal is to marry the two into one **beautiful home.**”
