VINTAGE FAT LAVA SCHEURICH VASE

The hallmarks of this distinctive German pottery style are several layers of thick glazes, with one dripping down over the others like a lava flow on a volcano's slope. The vases present its Brutalist volcanic effect purely visually, beneath a polished top glaze. Also characteristic are the striking colors, including molten gold.

DESIGNER: Scheurich
ORIGIN: Germany
CIRCA: 1960-70s
MATERIALS: ceramic

Height: 11"
Diameter: 4"

List: \$300.00
