### **VERNER PANTON FUN 1DM CHANDELIER**

Verner Panton's lamp series "FUN" was like nothing anyone had ever seen before in 1964. Now, 60 years on, Panton's FUN has become one of his most iconic works. Panton uses the world around him as inspiration to create unique and remarkable designs, especially in terms of details. This chandelier uses mother of pearl, creating a beautiful play of light with shimmers and sound. A lovely balance of juxtaposition between the delicate materials and the bold design makes this chandelier a grand and elegant statement piece.
